

How to put pictures on our website:

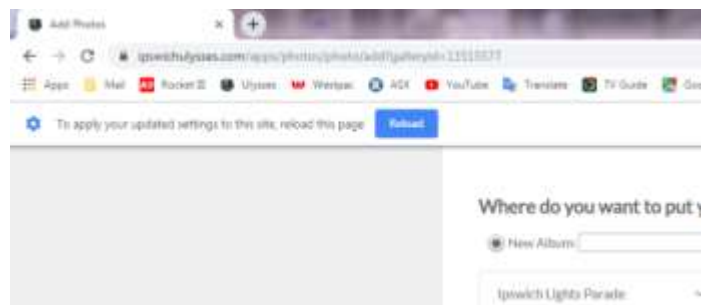

A lot of people are having trouble putting pictures on our website.

Here's a guide to how to do it.

- First click on “add pictures and the page below should appear.
- Fill out the name you want to call the album.
- It says: Click on Upload photos but there's no upload button as per picture below.

- Click on the padlock in the address bar and the window as shown to the left should appear.
- Where it says “Flash,” click on the button showing “Block (default)” and more options appear as shown in picture (left)
- Click Allow.

- A line should show saying: “To apply your updated settings to this site, reload this page”
- Click “Reload” and the “Upload photos” button should appear as per picture below. You should now be able to upload photos. Good luck.
